FULL STACK DEVELOPER

SUMMARY

Full Stack Developer with hands-on experience in building MERN stack applications using React.js, Node.js, Express.js, and MongoDB. Skilled in creating REST APIs, JWT authentication systems, responsive UI, and full-stack web applications. Familiar with Git, GitHub, Postman, Tailwind CSS, and deployment using Vercel, AWS EC2, PM2, and Nginx.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS | Backend: Node.js, Express.js, REST APIs, JWT Authentication | Database: MongoDB, MySQL | Tools: Git, GitHub, Postman, VS Code | Deployment: Vercel, PM2, Nginx, AWS EC2

PROJECTS

Task Management System | MERN Stack

Built a full-stack task management application using React.js, Node.js, Express.js, and MongoDB with JWT authentication, OTP-based password reset, protected routes, task creation, assignment, status tracking, and role-based access control. Designed responsive UI using Tailwind CSS, developed REST APIs, integrated SMTP email functionality for OTP verification and task assignment notifications, and deployed the project using Vercel, PM2, and Nginx.

Developer Portfolio Website

Built and deployed a responsive portfolio website using React.js and Tailwind CSS to showcase projects, technical skills, and contact information with mobile-friendly design. Integrated SMTP-based contact form and stored user messages in MongoDB.

GitHub Finder App

Built a GitHub Finder application using React.js and GitHub REST API to search GitHub users and display profile details, repositories, followers, and other public account information with responsive UI design.

EDUCATION

Bachelor of Science in Information Technology
St. Andrew's College, University of Mumbai (2025–2027)
